Taft-Hartley Proxy Voting Principles and Guidelines

Egan-Jones Taft-Hartley Proxy Voting Principles

Taft-Hartley client accounts are governed by the Employee Retirement Income Security Act (“ERISA”), which enumerates rules under which pension fund assets must be managed and invested. The U.S. Department of Labor has stated that proxy voting rights are valuable plan assets, which must be exercised in accordance with the fiduciary duties of loyalty and prudence. While the duty of loyalty requires that the voting fiduciary exercise proxy voting authority solely in the economic interest of participants and plan beneficiaries, the duty of prudence requires that proxy voting authority be exercised with care, skill, prudence and diligence that a similarly situated prudent person knowledgeable in such matters would exercise.

Egan-Jones Ratings Co.’s proxy services Taft-Hartley Voting Guidelines promote long-term shareholder value, while emphasizing the economic best interests of plan participants and beneficiaries. Thus, our guidelines, like those of the AFL-CIO upon which they are based, address issues that affect long-term shareholder value, while considering workplace issues that may have an impact on long-term economic best interests of participants and beneficiaries, including corporate policies that affect job security and wage levels of plan participants, corporate policies that affect local economic development and stability, corporate responsibility to employees and communities in which a company operates, and workplace and environmental safety and health issues.

Introduction

Our Proxy Voting Principles serve as the background for our Proxy Voting Guidelines, which, in turn, act as general guidelines for the specific recommendations that we make with respect to proxy voting. It is important to recognize that such principles are not intended to dictate but guide. Certain of the principles may be inappropriate for a given company, or in a given situation. Additionally, the principles are evolving and should be viewed in that light. Our principles are and will be influenced by current and forthcoming legislation, rules and regulations, and stock exchange rules. Examples include:

- the Sarbanes-Oxley Act of 2002 and implementing rules promulgated by the U.S. Securities & Exchange Commission
- revised corporate governance listing standards of the New York Stock Exchange and resulting SEC rules
- corporate governance reforms and subsequent proposed rule filings made with the SEC by The NASDAQ Stock Market, Inc. and resulting SEC rules

In general:

- Directors should be accountable to shareholders, and management should be accountable to directors.
- Information on the Company supplied to shareholders should be transparent.
- Shareholders should be treated fairly and equitably according to the principle of one share, one vote.

Principles

A. Director independence

It is our view that:

- A two-thirds majority of the board should be comprised of independent directors.
- Independent directors should meet alone at regularly scheduled meetings, no less frequently than semi-annually, without the Chief Executive Officer or other non-independent directors present.
- The Chairman of the Board should be an independent director (i.e., he or she should not also be the Chief Executive Officer).
- When the Chairman of the Board also serves as the Company's Chief Executive Officer, the board should designate one independent director to act as a leader to coordinate the activities of the other independent directors.
- Committees of the board dealing with the following responsibilities should consist only of independent directors: audit, compensation, nomination of directors, corporate governance, and compliance.
- No director should serve as a consultant or service provider to the Company.
- Director compensation should be a combination of cash and stock in the Company, with stock constituting a significant component.

In our opinion, an independent director, by definition, has no material relationship with the Company other than his or her directorship. This avoids the potential for conflict of interest. Specifically such director:

- should not have been employed by the Company or an affiliate within the previous five years.
- should not be the founder of the Company.
- should not be a director of the Company serving in an ex officio capacity.
- should not be a member of the Company's Board of Directors for 10 years or more, however, a director who is a diverse nominee may be exempted from this rule on the case-by-case basis.
- should have no services contract regarding such matters as aircraft rental contract, real property lease or similar contract with the Company or affiliate, or with a member of the Company's senior management or provide legal or consulting services to the Company within the previous three years.
- should not be employed by a public company at which an executive officer of the Company serves as a director, and thereby be part of an interlocking relationship.
- should not be a member of the immediate family (spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone other than domestic employees who share such person's home) of any person described above.

- a director who receives, or whose immediate family member receives more than \$120,000 per year in *direct compensation* (base salary plus cash bonus) from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), is not independent until three years after he or she ceases to receive more than \$120,000 per year in such compensation.
- a director who is an executive officer or an employee, or whose immediate family member is an executive officer, of another company (other than a utility) or non-profit organization that makes payments to, or receives payments from, the Company for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1 million, or 2% of the recipient company's consolidated gross revenues, is not "independent" until three years after falling below such threshold. However, the existence of a credit agreement between a bank and the Company shall not affect the independence of a director who is an executive of that bank within the previous three years.

B. Board operating procedures

- The board should adopt a written statement of its governance principles, and regularly re-evaluate them.
- Independent directors should establish performance criteria and compensation incentives for the Chief Executive Officer, and regularly review his or her performance against such criteria. Such criteria should align the interests of the CEO with those of shareholders, and evaluate the CEO against peer groups.
- The independent directors should be provided access to professional advisers of their own choice, independent of management.
- The board should have a CEO succession plan, and receive periodic reports from management on the development of other members of senior management.
- Directors should have access to senior management through a designated liaison person.
- The board should periodically review its own size, and determine the appropriate size.

C. Requirements for individual directors

We recommend that:

- The Board should provide guidelines for directors serving on several Boards addressing competing commitments.
- The board should establish performance criteria for itself and for individual directors regarding director attendance, preparedness, and participation at meetings of the board and of committees of the board, and directors should perform satisfactorily in accordance with such criteria in order to be re-nominated.

D. Shareholder rights

- A simple majority of shareholders should be able to amend the Company's bylaws, call special meetings, or act by written consent.
- "Greenmail" should be prohibited.
- Shareholder approval should be required to enact or amend a "poison pill" (i.e., "shareholder rights") plan
- Directors should be elected annually.

- The board should ordinarily implement a shareholder proposal that is approved by a majority of proxy votes.
- Shareholders should have effective access to the director nomination process.

Egan-Jones Taft-Hartley Proxy Voting Guidelines

Consistent with the above-listed principles, the proxy voting guidelines outlined below are written to guide the specific recommendations that we make to our clients. Ordinarily, we do not recommend that clients ABSTAIN on votes; rather, we recommend that they vote FOR or AGAINST proposals (or, in the case of election of directors, that they vote FOR ALL nominees, AGAINST the nominees, or that they WITHHOLD votes for certain nominees). In the latter instance, the recommendation on our report takes the form ALL, EXCEPT FOR and lists the nominees from whom votes should be withheld.

Whether or not the guideline below indicates “case-by-case basis,” every case is examined to ensure that the recommendation is appropriate.

Board of Directors

Election of Directors in Uncontested Elections

Case-by-case basis, examining composition of board and key board committees, attendance history, corporate governance provisions and takeover activity, long-term company financial performance relative to a market index, directors' investment in the Company, etc..

WITHHOLD votes from nominees who:

- are affiliated outside directors and sit on the Audit, Compensation, or Nominating committees.
- are inside directors and sit on the Audit, Compensation, or Nominating committees.
- are inside directors and the Company does not have Audit, Compensation, or Nominating committees.
- attend less than 75 percent of the board and committee meetings. Participation by phone is acceptable.
- ignore a shareholder proposal that is approved by a majority of the shares outstanding.
- ignore a shareholder proposal that is approved by a majority of the votes cast for two consecutive years.
- fail to act on takeover offers where the majority of the shareholders have tendered their shares.
- implement or renew a “dead-hand” or modified “dead-hand” poison pill.
- sit on more than five other public boards.
- serve as both Chairmen and CEOs, or serve as Chairmen and were formerly CEOs.
- serve as Chairmen but are not independent.
- serve as CEOs and hold more than one outside public directorship.

- serve as Chairmen of the Board and hold more than one outside public directorship.
- sit on the existing board, which has failed to respond adequately to a say-on-pay vote in which the majority of votes cast voted AGAINST.
- sit on the existing board, which has implemented a less frequent say-on-pay vote than the frequency option which received a majority of votes cast in the previous frequency vote.

Underperforming Board Policy

WITHHOLD votes from Compensation Committee members in cases when the Company obtains a questionable score on the Egan-Jones compensation rating model.

WITHHOLD votes from Compensation Committee members in cases when the Company's Compensation Plans (Cash Bonus Plan or Stock Option Plan) receive an "AGAINST" recommendation from Egan-Jones.

WITHHOLD votes from Chairman of the Board in cases when the Company obtains the lowest score of *Needs Attention* on the Cyber Security Risk Rating.

Board Accountability

Case-by-case basis for the following:

- Evidence or belief of failure of the board to properly account and prepare for risk (i.e. carbon or cyber issues)
- A low board score, coupled with poor performance
- Legal or ethical problems in the Company or its management

In cases in which the Company has engaged in the practice commonly referred to as "options backdating," Egan-Jones may recommend that votes be withheld from nominees serving on the Company's compensation committee, the company's entire board of directors, and/or its chief executive officer. Such recommendations will be made on a case-by-case basis, taking into consideration such matters as intent of the individuals involved, scope and timing of the practice, significance of financial restatement required, and corrective action taken.

Furthermore, we may recommend withholding votes from either members of the Company's compensation committee, its entire board of directors and/or its chief executive officer where the Company has engaged in what we judge to be other unsatisfactory compensation practices. Considerations may include such factors as "pay-for-failure" executive severance provisions, change-in-control payments which are either excessive or which are not tied to loss of job or significant reduction in duties, excessive executive perquisites, unjustified changes in the performance standards applied to performance-based compensation, and executive compensation out of proportion to performance of the Company.

- Number of board members that may be elected - cap of 1/3 of board or minimum 2 nominees, if the board size is being lowered the calculation is based upon the original board size, if it is being increased the calculation would be based upon the original board size, with each new slot added to the total, so two plus six if six new board positions are being created
- We prefer no limit or caps on the number of shareowners in the nominations group

Case-by-case basis on other such management proposals considering the specified purposes of the proposed increase, any explanation of risks to shareholders of failing to approve the request, potential dilution, and recent track record for using authorized shares, in which case judgment is applied to weigh such factors. Factors which are normally weighed in making such judgments include prior performance of the issuer, changes within the industry, relative performance within the industry, client preferences and overall good corporate governance. In general, we view the authorization of additional common shares to be ordinary and necessary and in the best long-term interests of the issuer and its shareholders.

Relative Compensation is based upon a number of quantitative and qualitative metrics which produce a final score that is both forward looking and based upon the prior performance metrics of the company's wealth creation and market capitalization as compared to the CEO's total compensation package. Higher wealth creation, market capitalization and lower CEO compensation all contribute to a higher score in this rating. Additional qualitative measures such as 162m compliance, executive pension plan status and other relevant factors are then used to calculate the final score.
